SUBJECT INDEX

VOLUME 40 NUMBERS 1–12

A

Absorption: Of cholesterol in hamsters, traced by fluoresterol 1747
ACAT: *see* Acyl coenzyme A:cholesterol acyltransferase
Acid sphingomyelinase: Induction in monocytes, mediated by Sp-1 and AP-2 870
Acute phase response
Effect on HDL metabolism 648
SAA-only HDL formed during, in apoA-I+/+ and apoA-I−/− mice 1090
Acyl chain interactions: Polymorphic transitions of SOS and OSO 140
Acyl coenzyme A:cholesterol acyltransferase: Inhibition by avasimibe, effect on VLDL and LDL apoB production 1317
Acylation stimulating protein: Delayed postprandial triglyceride clearance in mice lacking 1671
Acyltransferase: Of monolysocardiolipin in rat heart 1837
Adhesion molecules: Expression in the arterial wall 1958
Adipocyte lipid-binding protein 967
Adipocytes
Decreased expression and function of hormone-sensitive lipase in obese subjects 2059
Lipolytic response to β-adrenoceptor agonists 1719
Localization of FACS at the plasma membrane 881
Rabbit, effect of pregnancy on α2- and β-adrenergic receptors 267
Adipokinetic hormone: Lipolysis of triacylglycerols in *Manduca sexta* fat body induced by 556
Adipose cell lipolysis: And weight loss in humans 1559
Adipose tissue
Brown, In vivo quantitative lipidic map of 1395
Lipid metabolism in, after oral glucose 2034
Metabolism, studied with structured triacylglycerols 1890
Subcutaneous, atypical expression of HMG-CoA synthase in, in male rats 1071
Adrenal scavenger receptor-BI: Regulation of expression by ACTH and cellular cholesterol pools 1799
Adrenal tumor cells: Cholesterol esterification in 1440
Adrenergic receptors: α2 and β, in rabbit fat cells, effect of pregnancy 267
Adrenocorticotropic hormone: Regulation of adrenal SR-BI expression by 1799
β-Adrenoceptor agonists: Lipolytic response to, in rat white adipocytes 1719
AI-CIII-AIV gene cluster: Expression linked to vitamin A in FCHL 426
AKH: *see* Adipokinetic hormone
Alagille syndrome: Serum from patients with, cholesterol efflux from Fu5AH cells to 328
Albumin: Role of, in regulation of availability of substrate for platelet 12-lipoxygenase 940
Alcohol: Increased oxidation of LDL by, in baboons 983
Alkyl-dihydoxyacetonephosphate synthase deficiency: Reduced dihydroxyacetonephosphate acyltransferase activity in 1998
ALPB/aP2: *see* Adipocyte lipid-binding protein
Alzheimer's disease: HSPG and apoE in 1
Amino acid composition: And N-terminal sequence of microsomal cholesteryl ester hydrolase 715
Amino acid sequence
Of bile acid-CoA hydrolase 17
Of insect lipophorin receptor 973
Of pig LDL receptor 475
Aβ Amyloid peptide: Competition with apoE for receptor-mediated endocytosis 447
Analytical capillary isotachophoresis: Of total plasma lipoproteins 170
Animal model: For type I hyperlipoproteinemia, chylomicron metabolism in 1336
Anisomycin: Activation of MAPKs in HepG2 cells 1911
Antilithiasic effect: Of β-cyclodextrin in the hamster 726
Antioxidants
Changes in plasma and aortas of apoE knockout mice 1104
Effect of, on VCAM-1 expression 1958
In atherogenesis 2143
APOBEC1: *see* Apolipoprotein B mRNA editing enzyme
Apolipoprotein [a]
Binding to fibrinogen and apoB-100 583
Human allele, expressed in transgenic mice 994
Phenotyping using a recombinant apo[a] standard 354
Presecretory degradation, mediated by the proteasome pathway 275
Apolipoprotein A-I
Charge and conformation, regulation of clearance of reconstituted HDL in vivo 522
Expression, transcription factors and age-related decline in 1709
Gene, transcriptional elongation of 1229
In small, medium, and large HDL particles 1782
Kinetics in heterozygous familial hypercholesterolemia 1506
Kinetics, in TRL and HDL 1695
Knockout mice, formation of SAA-only HDL during the acute phase response 1090
Levels in HDL of normolipidemic women 1211
Lipid-free, remodeling of reconstituted HDL by 2293
Model for, in cellular metabolism 187
(P165R), associated with hypoalphalipoproteinemia 486
Promoter, hepatic nuclear binding activity to 1709
Promotion of cholesterol release and apoE recruitment from macrophage foam cells 85
Proteolytic cleavage by PLTP 654
$(R160L)_{Oslo}$, associated with hypoalphalipoproteinemia 486
Transgenic mice 648
Variants associated with hypoalphalipoproteinemia in heterozygous carriers 486
Apolipoprotein A-II
Lipid-free, remodeling of reconstituted HDL by 2293
Maintenance of HDL levels by inhibition of hepatic lipase 1064
Apolipoprotein A-IV gene: Variation of, effect on body mass index and postprandial lipids 287
Apolipoprotein B
Embryonic expression 1967
Gene, targeted modification in HepG2 cells 901
In VLDL and LDL, decreased production by ACAT inhibition 1317
Lipoproteins containing, structural heterogeneity of 1827
Overproduction by the perfused liver of the SMHL rabbit 2234
Particle assembly initiated by lipovitellin-like "lipid pocket" 1401
Prevalence of truncations of 955
Promoter, functional polymorphism in 1686
R3531C mutation 318
Receptor for triglyceride-rich lipoproteins in human monocytes, macrophages, and endothelial cells 744

Removal from intracellular membranes for VLDL assembly 1758
mRNA editing enzyme, mutational analysis of 623
Secretion from HepG2 cells, regulation by HMG-CoA inhibitors 1078
Targeted for degradation by dietary fish oil 504
Transgenic mice, genetic control of apoB-100 secretion 2004
Translocation into the ER 2212
VLDL, increased production with overexpression of MTP 2134
Apolipoprotein B-48
ApoB-48-only mice, monoclonal antibodies for apoB-100 in 76
Catabolism within TRL 1695
Apolipoprotein B-82: Low production rate in a mutant HepG2 cell line 901
Apolipoprotein B-100
Binding to apo[a] 583
Hepatic secretion, genetic control in human apoB transgenic mouse strains 2004
Low production rate in a mutant HepG2 cell line 901
Monoclonal antibodies for, in apoB-48-only mice 76
Oxidation by myeloperoxidase 686
Apolipoprotein C-I
Hpa RFLP of, increase of gene transcription by 50
Polymorphism, effect on lipoproteins 50
Apolipoprotein C-III
Displacement of apoE by, from VLDL 1875
Promoter region IRE in, and FCH 1036
VLDL particles containing, effect of estrogenic contraceptives on 202
Apolipoprotein composition: Of remnant-like particles from hyperlipoproteinemic patients 636
Apolipoprotein E
Adenovirus-mediated expression in apoE−/−/Ldlr−/− mice 336
And cholesterol utilization in human adrenal cells 1440
And remnant lipoprotein metabolism 1933
ApoE-dependent efflux of cholesterol from macrophages 1618
ApoE-independent pathway of chylomicron remnant uptake 797
Competition with Aβ amyloid peptide for receptor-mediated endocytosis 447
Displacement from VLDL by apoC-III 1875
Equilibrating and non-equilibrating pools in VLDL 1875
Genotype, determination using a heteroduplex generator 2340
Genotypes, in the REGRESS Study 735
Inhibition of platelet aggregation by 1925
Involvement in remnant lipoprotein metabolism 1
Knockout mice, changes to lipids and antioxidants in plasma and aortas 1104
Knockout mice, overexpressed LPL in, protection against atherosclerosis 1677
Knockout mice, susceptible to endotoxemia and *Klebsiella pneumoniae* infection 680
Linkage disequilibrium with alleles of 50
Lower threshold of, resulting in remnant lipoprotein clearance 1529
Macrophage-specific, in atherosclerosis 806
N-terminal domain, lipid binding-induced conformational changes in 93
Newly synthesized, binding by LDL receptor 1029
Newly synthesized, turnover in HepG2 cells 39
Peptides, binding to scavenger receptor 753
Receptor binding region 1933
Receptor 2, in human blood platelets 1925
Recruitment from macrophage foam cells 85
Requirement for catabolism of remnant lipoproteins in LDL receptor-deficient mice 336
VLDL particles containing, effect of estrogenic contraceptives on 202
Apolipoprotein E7: A mutant apoE associated with hyperlipidemia and atherosclerosis 253
Apolipoprotein J 1276
Apolipoproteins
Association with IRE in the apoC-III promoter region in FCH 1036
In plasma of hyperlipoproteinemic patients 636
Mediation of lipid efflux from immortalized cells by 1769
Of VLDL, mass spectral study of polymorphism of 543
Rat liver, gene expression, effect of TTA on 2099
Apoptosis
In T lymphocytes, mediated by oxidized LDL 1200
TNF-induced in fibrosarcoma cells, specificity of endogenous fatty acid release 2223
Arachidonic acid
And PGE_2 regulation of hepatic lipogenic gene expression 1045
Formation in the pregnant and fetal baboon 1304
Release from cardiac myoblasts induced by lysoPC 1818
Release from fibrosarcoma cells, TNF-induced 2223
Vascular effects in the rat perfused heart 2177
ASP: *see* Acylation stimulating protein
Atherogenesis: Oxidants and antioxidants 2143
Atherosclerosis
In apoE knockout mice, protection against by overexpressed LPL 1677
In hormone-sensitive lipase transgenic mice 397
In human apoB transgenic diabetic mice 2185
In mice, diet-induced 806
In rabbits, effect of antioxidants 1958
Protection against by estrogen, in LDL receptor-deficient mice 893
Susceptibility in inbred mouse strains, QTL analysis for 1328
Transgenic rabbits as models for 365
Atorvastatin: Regulation of apoB secretion from HepG2 cells by 1078
Avasimibe: Inhibition of ACAT by 1317

B

Baboon: Pregnant and fetal, linoleic acid kinetics in 1304
Bacteria: Interaction with cationic liposomes 1495
Bactericidal action: Physical chemistry of 1495
BCD: *see* β-Cyclodextrin
Bilayers: Of synthetic cerebrosides 839
Bile
Bile acids in, assay by proton magnetic resonance 1920
Biliary proteins and cholesterol crystallization 415
Bile acid synthesis
Effects of 17α-ethinylestradiol on 100
In rat pancreatic hepatocyte-like cells 1793
In the Smith-Lemli-Opitz syndrome 1520
Involvement of oxysterol 7α-hydroxylase 2195
Bile acid transport
Across the canalicular membrane 1604
Bile acid-coenzyme A hydrolase: Human intestinal *Eubacterium sp.* strain VPI 12708 17
Bile acids
3D QSAR pharmacophore for the Na^+/bile acid cotransporter 2158
Assay by proton magnetic resonance 1920
Cotransporter with Na^+, in rabbit ileal 1604
Gallbladder, in hamsters fed diets containing BCD or cholestyramine 726

Quantitation in human stool by capillary GLC 1148
Synthesis in humans 1194
Bile formation: And phospholipid solubilization 2022
Bile salt-induced hepatic damage: Prevention by enrichment of canalicular membrane with cholesterol and sphingomyelin 533
Bile salts: In hepatic bile 2066
Bile secretion 533
Biliary lipid secretion: And *Lith* genes 2066
Biliary proteins, soluble: No pathophysiologic relationship to cholesterol crystallization in human bile 415
Biliary transport: Of fluorescent phospholipids 1950
Binding
Of apoB R3531C to the LDL receptor 318
Of lipoproteins to LPL 1655
Of lipoproteins to the cell surface 753
Binding kinetics: Of apoA-I and apoA-II to reconstituted HDL 2293
Binding proteins: For HDL 187
Bioactive peptides: Models of the conserved anionic N-terminal subdomain of apoE 753
Blood platelets, human: ApoE receptor 2 in 1925
Body fat distribution: Monogenic disorders of 1735
Body mass index: Effect of variation in the apoA-IV gene on 287
Bovine udder: Isolation and characterization of monoacetyldiglycerides from 2169
Brain
Equine, novel plasmalogalactosylalkylglycerol from 2271
Rat, developmental changes in membrane lipids and fatty acids 960
Sterol metabolism, OSBP homologue implicated in 2204
Breath carbon dioxide: As measure of fatty acid oxidation 2322
(R)-2-Bromopalmitate: Use of in assessing tissue-specific FFA utilization in vivo 1155
Bronchoalveolar lavage: Differential determination of PLA_2 and PAF-acetylhydrolase in 2346
Brown adipose tissue: In vivo quantitative lipidic map of 1395

C

C7αH: *see* Cholesterol 7α-hydroxylase
CAD: *see* Coronary artery disease
Calcium
And cAMP, second messengers in AKH-induced lipolysis in *Manduca sexta* fat body 556
Effect on stratum corneum lipid organization 2303
Transport in cardiac myoblasts, induced by lysoPC 1818
Calnexin
Role in protein maturation 2044
Role of, in human hepatic lipase secretion 1627
Canalicular bile formation: And phospholipid solubilization 2022
Canalicular membrane 1950
Lipids of 533
Capillary isotachophoresis
Characterization and quantitation of serum lipoprotein subfractions by 2125
Of LDL 170
Carbohydrate recognition domain: Importance in SP-A–phospholipid associations 920
Carboxy-terminal histidine-tagged LCAT 1512
Cardiac myoblasts: LysoPC induced arachidonic acid release in 1818
Cardiolipin
Model of molecular remodeling in heart mitochondria 1837
Muscle, microanalysis of 1585
Catecholamines: Responsiveness of rabbit fat cells to, regulation by pregnancy 267
Cationic liposomes: Interaction with bacteria 1495
Caveolae: Macrophage 1647
Caveolin: And cholesterol utilization in human adrenal cells 1440
CCR2: *see* Monocyte chemoattractant protein receptor
CD36: *see* Macrophage type B scavenger receptor
CEH: *see* Cholesteryl ester hydrolase
Cell cholesterol efflux: Review article 781
Cell signaling: And HDL 187
Cell surface: HepG2 cells, newly synthesized apoE 39
Cell-mediated oxidation: Of LDL 1240
Cellular cholesterol
Regulation of expression of CD36 830
Regulation of adrenal SR-BI expression by 1799
Central nervous system: Sterol balance in 2204
Ceramide species: Quantitative measurement by ESI-MS/MS 1539
Ceramides
In stratum corneum lipids 2303
Containing 6-hydroxysphingosine, in human skin 1434
Mixtures with dipalmitoylphosphatidylcholine, phase behavior and molecular interactions 1978
Cerebrosides, synthetic: Bilayers of 839
Chaperones
Endoplasmic reticulum 2044
ER calnexin 1627
Chemical shift imaging: In vivo quantitative lipidic map of brown adipose tissue 1395
Cholestasis, intrahepatic: In rats, induced by 17α-ethinylestradiol 100
Cholestatic serum: Cholesterol efflux from Fu5AH cells to 328
Cholestenoic acid: Formed from cholesterol in human lung by sterol 27-hydroxylase 1417
Cholesterol
And mucin gel promote cholesterol crystallization in human gallbladder bile 415
Changes in serum, threshold of apoE necessary for 1529
Crystallization, no pathophysiologic relationship to soluble biliary proteins in human bile 415
Determination at the low picomole level, by nano-ESI-MS/MS 126
Elimination as cholestenoic acid in human lung 1417
Enrichment in canalicular membrane, with sphingomyelin, and prevention of bile salt-induced hepatic damage 533
ER, regulation by plasma membrane cholesterol 2264
Interaction of SP-A with 920
Plasma membrane, regulation of ER cholesterol by 2264
Regulation of stearoyl-CoA desaturase by 1549
Cholesterol 7α-hydroxylase
Activity in rat liver, effects of dehydrocholesterols on 1520
Gene expression in pancreatic hepatocyte-like cells 1793
Gene, genetic polymorphism 1883
Cholesterol 27-hydroxylase: Activity in rat liver, effects of dehydrocholesterols on 1520
Cholesterol absorption
In normal men and women 302
In the hamster, traced by a fluorescent analog 1747
Synthetic saponin inhibitors of 464
Versus cholesterol dose 1453
Cholesterol cholelithiasis
In inbred mice 2066
Susceptibility to, in inbred mice 2080
Cholesterol efflux
From cells 781
From Fu5AH cells to Alagille syndrome serum 328
From macrophages, apoE-dependent 1618
Up-regulation of sterol synthesis in macrophage foam cells induced by 1806

Cholesterol esterification: In adrenal tumor cells 1440
Cholesterol flux: Scavenger receptor BI-mediated 575
Cholesterol gallstone formation: Prevention by β-cyclodextrin in the LPN hamster 726
Cholesterol homeostasis: Role of CEH in 2091
Cholesterol nucleation: In model bile 1483
Cholesterol oxidation 1846
Cholesterol release: From macrophage foam cells 85
Cholesterol response element: In the promoter of the CETP gene 1284
Cholesterol shuttling: Between cells and serum lipoproteins, capacity of cyclodextrins for 1475
Cholesterol sulfate: Effect on stratum corneum lipid organization 2303
Cholesterol synthesis: Regulation in macrophage foam cells 1806
Cholesterol trafficking 610
Fluorescent tracer for 1747
Cholesterol, cellular
Regulation of expression of CD36 830
Regulation of adrenal SR-BI expression by 1799
Cholesterol-lecithin vesicles: Energy transfer study, in presence of phospholipase C 1483
Cholesteryl ester
HDL, selective uptake by SR-BI, promoted by hepatic lipase 1294
HDL, uptake in the hamster 1384
Selective uptake in THP-1 macrophages 1647
Cholesteryl ester hydrolase
From rat liver microsomes, purification and properties 715
Regulation of promoter 2091
Cholesteryl ester hydrolysis: In cytoplasm and lysosomes of J774 macrophages 405
Cholesteryl ester storage disease 221
Cholesteryl ester transfer: And VLDL-bound LPL 2333
Cholesteryl ester transfer protein
Core aldehydes, formed during cell-mediated LDL oxidation 1240
Epitope mapping of Mab that selectively inhibits triglyceride transfer 2013
Gene, characterization of CRE in the promoter 1284
Gene polymorphism, influence on plasma LCAT and lipid transfer protein activities 1467
Monoclonal antibody that selectively inhibits triglyceride transfer 2013
Remodeling of HDL by, enhanced cellular uptake of HDL-CE 1185
Response to intravenous triglyceride 1459
Transfer of cholesteryl esters from HDL to VLDL 2333
Cholestyramine 726
Chromatography, gas-liquid capillary: Quantitation of bile acids and sterols in human stool 1148
Chromosomal localization: Of phosphomevalonate kinase 672
Chylomicron metabolism: In an animal model for type I hyperlipoproteinemia 1336
Chylomicron remnants
ApoE-independent pathway for liver uptake of 797
Plasma clearance and liver uptake 797
Removal by liver 1899
Chylomicrons
Clearance of retinyl esters, influence of LPL expression on 565
Fatty acids derived from, comparative oxidation 2322
Secretion by enterocytes, effect of dietary triacylglycerol 1858
Secretion by isolated rabbit enterocytes 1357
Clearance
Of HDL cholesteryl esters by SR-BI 1185
Of remnant lipoproteins 1
Clearance pathways: Of remnant lipoproteins 1933
Cloning: Of human malonyl-coenzyme A decarboxylase 178
Compartmental models: For apoB-48 and apoA-I 1695
Computed tomography 1559
Confocal microscopy 1747
Conformational changes: In N-terminal domain of apoE, induced by lipid binding 93
Contraceptives, estrogenic: Effect on lipoprotein B particles defined by apoE and apoC-III content 202
Coronary artery disease: LPL activity in 735
Coronary heart disease
Risk and CYP7 promoter polymorphism 1883
Risk in middle-aged men 1686
CRE: *see* Cholesterol response element
Cryo-electron microscopy: Visualization of structural heterogeneity of apoB-containing lipoproteins by 1827
Cyclic adenosine monophosphate: And calcium, second messengers in AKH-induced lipolysis in *Manduca sexta* fat body 556
Cyclodextrins
Cholesterol shuttling ability of 1475
In model systems of cellular cholesterol efflux 781
β-Cyclodextrin: Antilithiasic effect 726
Cyclooxygenase: Role of in vascular effects of arachidonic acid in the rat perfused heart 2177
Cyclooxygenase genes 1045
Cyclophanes: Cholesterol shuttling ability of 1475
CYP7: *See* Cholesterol 7α-hydroxylase
CYP7B1 gene: Structure and function of 2195
Cytochrome P450 4A family: Involvement in oxidation of HNE 152
Cytochromes P450
Human, hydroxylations of fatty acids by 1990
Role of in vascular effects of arachidonic acid in the rat perfused heart 2177
Cytosolic triglyceride recruitment: Suppression by inactivation of MTP 1758

D

7-Dehydrocholesterol: Oxidized derivatives of, induction of growth retardation in cultured rat embryos 456
Dehydrocholesterols: Effects on cholesterol 7α-hydroxylase and 27-hydroxylase in rat liver 1520
Dehydrogenase/reductase, short chain: *cis*-retinol oxidation by 2279
7α-Dehydroxylation: Of cholic acid by *Eubacterium sp.* strain VPI 12708 17
Desialylation, monoenzymatic: Of polysialylated ganglio-N-tetraose series gangliosides 160
Developing embryos: Influence of oxidized derivatives of 7-dehydrocholesterol on 456
Developmental changes: In rat brain membrane lipids and fatty acids 960
DHA: *see* Docosahexaenoic acid
Diabetes susceptibility: In inbred mouse strains, QTL analysis for 1328
Diabetes, streptozotocin-induced: In human apoB transgenic mice, effect on lipoproteins and atherosclerosis 2185
Dietary cholesterol: Effect on cholesterol absorption 1453
Dietary fat: Early events in metabolic processing of 1890
Dietary fatty acid composition: Effect on chylomicron secretion by enterocytes 1858
Dietary fatty acids: And HDL transport in the hamster 1384
Dietary fish oils: Inhibition of VLDL secretion by 504
Dietary oxysterols: Contribution to atherogenesis 1846
Dietary sunflower oil: Effect of on apoB secretion 504

sn-1,3-Dioleoyl-2-stearoylglycerol: Structural analyses of polymorphic transitions 140
sn-1,3-Distearoyl-2-oleoylglycerol: Structural analyses of polymorphic transitions 140
cDNA: Of human oxysterol 7α-hydroxylase 2195
cDNA cloning: Of rat liver phytanoyl-CoA hydroxylase 2244
Dipalmitoylphosphatidylcholine
Interaction of SP-A with 920
Mixtures with ceramide, phase behavior and molecular interactions 1978
Docosahexaenoic acid
Preferential accumulation in prenatal rat brain membrane lipids 960
Regulation of levels by plasmalogens 495
Turnover in human lipids 1867
DPPC: *see* Dipalmitoylphosphatidylcholine
***Drosophila*:** Heme-binding by RFABG 1222
Dysbetalipoproteinemia: Pathogenesis of 1933

E

Electron microscopy: Of mitochondria 1585
Electrospray ionization tandem mass spectrometry
Quantitation of different ceramide species by 1539
Determination of cholesterol at the low picomole level 126
Electrostatic fields: Of glycosphingolipid monolayers 930
Elongation blocks: In the rat apoA-I gene 1229
Embryonic development: Mouse, lipoprotein secretion in yolk sac during 1967
Embryotoxic effect: Of oxidized derivatives of 7-dehydrocholesterol 456
Enantiomeric purity: Of *erythro*-sphingosine 764
Endocytosis
By hepatocytes 1
Of insect lipophorin, mediated by a VLDL insect homolog 973
Of LDL, in hamster cells expressing mutant LDL receptors 814
Endoplasmic reticulum
Cholesterol, regulation by plasma membrane cholesterol 2264
Maturation of LPL in 2044
Endosomes: Of J774 macrophages, hydrolysis of retinyl esters in 309
Endothelial cells: Incorporation of 13-HODE into 699
Endothelium: Role of in vascular effects of arachidonic acid in the rat perfused heart 2177
Endotoxin susceptibility: Of apoE-deficient mice 680
Energy homeostasis
Central control mechanisms of 1735
Role of dietary vitamin A in regulation of 824
Enterocytes
Isolated rabbit, model cell system for chylomicron assembly and secretion 1357
Secretion of chylomicrons, effect of dietary triacylglycerol 1858
Enterohepatic circulation 100
Enzyme structure and activity: LCAT, effect of natural mutations on 59
Epidermal lipids 1434
Epitope mapping: For anti-rabbit CETP monoclonal antibody that selectively inhibitstriglyceride transfer 2013
ER: *see* Endoplasmic reticulum
ESI-MS/MS: *see* Electrospray ionization tandem mass spectrometry
17β-Estradiol: Reduction of TNF-α-mediated LDL accumulation in the artery wall by 387
Estradiol: Antioxidant role for 387
Estrogen: Protection against atherosclerosis by, in LDL receptor-deficient mice 893
Estrogenic contraceptives: Effect on lipoprotein B particles defined by apoE and apoC-III content 202
Ether lipid biosynthesis 1998
17α-Ethinylestradiol: Effects of on bile acid synthesis 100
***Eubacterium sp.* strain VPI 12708:** Bile acid-CoA hydrolase from 17
European Atherosclerosis Research Study II 287
Expression
Of adrenal SR-BI, regulation by ACTH and cellular cholesterol pools 1799
Of apoE by macrophages, effect on cell cholesterol balance 1618
Of C7αH and 5βR in rat pancreatic hepatocyte-like cells 1793
Of CCR2, increased in hypercholesterolemia 1053
Of hormone-sensitive lipase in obese subjects 2059
Of MTP, effect on VLDL production 2134
Of murine liver FABP 708
Of scavenger receptor-B1 and caveolin-1 in macrophages 1647
Of SR-BI, up-regulation by PUFA 1384

F

FABP: *see* Fatty acid binding protein
FACS: *see* Fatty acyl-CoA
Familial combined hyperlipidemia
IRE in apoC-III promoter region in 1036
SMHL rabbit as a model for 2234
Vitamin A linked to expression of the AI-CIII-AIV gene cluster 426
Familial hypercholesterolemia
Heterozygotes, deletion of exons 2 and 3 of the LDL receptor gene 213
Heterozygous, apoA-I kinetics in 1506
Locus heterogeneity in 1113
Farnesyl diphosphate synthase: Association with peroxisomes 1572
Fat absorption 1357, 1858
Fat cells
Decreased expression and function of hormone-sensitive lipase in obese subjects 2059
Movement of fatty acids out of, facilitated by adipocyte lipid-binding protein 967
Fat load: Intravenous, response of LCAT, PLTP, and CETP to 1459
Fatty acid analysis: Validation of methodology for 2118
Fatty acid binding protein: Liver, transcriptional activation by phytanic acid 708
Fatty acid oxidation: Comparison between oleate and palmitate 2322
Fatty acid transport protein: Expression in heart giant vesicles 1007
Fatty acids
Endogenous, specificity of release in TNF-induced apoptosis in fibrosarcoma cells 2223
Hydroxylations by human cytochromes P450 1990
In marine oils 1501
In rat brain membrane lipids, preferential prenatal accumulation of docosahexaenoic acid 960
Long-chain, cellular uptake and intracellular trafficking 1371
Long-chain, intracellular trafficking 881
Long-chain, uptake by heart and muscle vesicles 1007
3-Methyl-branched, stereochemistry of α-oxidation of in rat liver 601

Regulation of melanogenesis by 1312
Trafficking 1371
Fatty acyl-CoA synthetase, long-chain: Localization at plasma membrane in adipocytes 881
Fatty streak lesions: Immunofluorescent detection of apoE antigen in, in mice 806
FCH: *see* Familial combined hyperlipidemia
FCHL: *see* Familial combined hyperlipidemia
Fecal bile acids and sterols: Quantitation by capillary GLC 1148

Fibrosarcoma cells: TNF-induced apoptosis in, specificity of endogenous fatty acid release 2223
Flow cytometry: HDL_3 binding studies with 1131
Fluorescence energy transfer study: Of lecithin-cholesterol vesicles 1483
Fluorescence-labeled ligand: Use of in identification of HDL_3 binding sites on monocytes 1131
Fluorescent phospholipids: Biliary transport 1950
Fluorescent triacylglycerols: From *Parinari glaberrimum*, used to detect low lipase activities in seedlings 2313
Fluorescent-stained lipoproteins: Capillary isotachophoresis of 2125
Fluoresterol: A fluorescent analog of cholesterol for tracing cholesterol trafficking 1747
Fluorimetric analysis: Of PLA_2 and PAF-acetylhydrolase 2346
Foam cells
Cholesterol release and apoE recruitment from 85
Formation 1017
Regulation of cholesterol synthesis in 1806
Formyl-Met-Leu-Phe: Effect on granulocytes in patients with hypercholesterolemia 1728
Fractional catabolic rate: Of native and reconstituted HDL particles 522
Framingham Offspring Study 1883
Free fatty acids
Plasma, new procedure to determine concentration and isotopic enrichment 2118
Tissue-specific, assessing utilization in vivo 1155
Validation of a new procedure for determination of 2118
Fu5AH cells: Cholesterol efflux from, to cholestatic serum 328
Functional polymorphism: In the apoB promoter 1686

G

Galactocerebrosides: Synthetic, structure and properties 839
Gallstone-susceptible mice: Lithogenic bile formation in 2066
Gallstones: Cholesterol, susceptibility in inbred mice 2080
Ganglioside GM1: Production from polysialylated gangliosides 160
Gangliosides, polysialylated: Hydrolysis to GM1 160
Gene expression
CETP, role of CARE 1284
Embryonic, of apoB, microsomal triglyceride transfer protein, and α-tocopherol transfer protein 1967
Of cyclooxygenase in rat liver and primary hepatocytes 1045
Of the AI-CIII-AIV cluster, linked to vitamin A in FCHL 426
Rat liver apolipoproteins, effect of TTA on 2099
Gene polymorphism
Of the CYP7 gene and LDL cholesterol levels 1883
TaqIB cholesteryl ester transfer protein 1467
Gene regulation: Of acid sphingomyelinase in monocytes 870
Gene structure: Of a retinol dehydrogenase that oxidizes 9-*cis*-retinol 2279
Gene transcription: Increased by a common Hpa I RFLP of apoC-I 50
Gene variant: Of LPL 1663
Genetic determinants: Of HDL metabolism on normolipidemic females 1211
Genome Reporter Matrix TM: Evaluation of isoprenoid biosynthesis regulation in *S. cerevisiae* using 850
Genotype: ApoE, determination using a heteroduplex generator 2340
GLC: *see* Chromatography, gas-liquid
β-Glucocerebrosidase: Activity in mammalian stratum corneum 861
Glucocerebrosides: Synthetic, structure and properties 839
Glucose: Co-ordination of hepatic and adipose tissue lipid metabolism after oral administration 2034
Glucosidase: Endoplasmic reticulum 1627
Glycolipids, plasmalo-: In equine brain 2271
Glycosphingolipid monolayers: Modulation of PLA_2 activity against 930
Glycosylation
N-linked, and human hepatic lipase secretion 1627
Of apoB 2212
Golgi membranes: Removal of apoB from, in assembly of VLDL 1758
Granulocytes: Altered signal pathway in, in patients with hypercholesterolemia 1728
GRM: *see* Genome Reporter Matrix TM

H

HDL: *see* High density lipoprotein
Heart disease: Relationship to diabetes 1328
Heart vesicles: Palmitate uptake by 1007
Heme-binding: By *Drosophila* retinoid- and fatty acid-binding glycoprotein 1222
Heparan sulfate proteoglycans 1263
Involvement in remnant lipoprotein metabolism 1
Heparin binding: Of apoE 253
Hepatic α-oxidation: Stereochemistry of 601
Hepatic bile: Biliary lipid composition of 2066
Hepatic lipase
Activity, influence on HDL subclasses in normotriglyceridemic men 229
Chylomicron remnants generated by, plasma clearance and liver uptake 797
Elevated activity, and low HDL cholesterol in a normoglyceridemic, nonobese Turkish population 432
Inhibition by apoA-II 1064
Metabolic and genetic determinants of activity, in normolipidemic females 1211
Promotion of uptake of HDL cholesteryl ester via SR-B1 by 1294
Secretion, role of N-linked carbohydrate processing 1627
Hepatic lipid regulatory enzymes: Integrated activities of 2080
Hepatic lipogenic gene expression: Regulation by PGE_2 1045
Hepatic scavenger receptor expression: Up-regulated by PUFA 1384
Hepatic tissue: Lipid metabolism in, after oral glucose 2034
Hepatic triglyceride lipase: Promotion of LDLR-mediated VLDL catabolism by 1263
Hepatic uptake: Of HDL cholesteryl esters 1185
Hepatobiliary secretion: Of fluorescent phospholipids 1950
Hepatocyte canalicular membrane: Transport of bile acids across 1604
Hepatocyte growth factor: And LDL receptor expression 1911
Hepatocyte nuclear binding activity 1709
Hepatocyte secretory proteins: In RER fractions 1140

Hepatocytes
Isolation of RER from 1140
Uptake and endocytosis of remnants by 1
Hepatoma cells: Differential binding of proteins to peroxisomes 1572
HepG2 cells
Induction of LDL expression by anisomycin 1911
Regulated turnover of cell surface associated apoE in 39
Regulation of apoB secretion by atorvastatin and simvastatin 1078
Targeted modification of the apoB gene 901
HETE: *see* Hydroxyeicosatetraenoic acid
Heteroduplex generator: Rapid determination of apoE genotype by 2340
High density lipoprotein
ApoA-I kinetics in 1695
HDL_3 binding sites on human monocytes 1131
Maintenance of levels by apoA-II 1064
Metabolic and genetic determinants of, in normolipidemic females 1211
Metabolism, effect of SAA gene transfer on 648
Postprandial, composition in LPL Asn291Ser carriers 1663
Receptors, binding proteins, and ligands 187
Relationship with phospholipid transfer protein in inbred mouse strains 295
Role in reverse cholesterol transport 575
Serum amyloid-only, formed during acute phase response in apoA-I knockout mice 1090
Small, converted to larger HDL in vivo 1782
Small, rapid clearance of 1276
Subclass distribution, influence of hepatic lipase activity 229
Subfractions determined by capillary isotachophoresis 2125
Transport in the hamster, effect of dietary fatty acids 1384
High density lipoprotein cholesterol
Correlated with HDL size and apoA-I and apoA-II levels in normolipidemic females 1211
Enhanced uptake by cells expressing scavenger receptor B-I 1185
Low levels in a normoglyceridemic, nonobese Turkish population 432
High density lipoprotein cholesteryl esters
Selective uptake by SR-B1 1294
Cholesteryl esters, transfer to VLDL 2333
High density lipoprotein, reconstituted
Clearance in vivo, regulation by charge and conformation of apoA-I 522
Inhibition of VCAM-1 expression in HUVECs by 345
Remodeled by lipid-free apoA-I and apoA-II 2293
High-fat diet: Effect on plasma apo[a] and cholesterol in transgenic mice 994
HMG-CoA synthase: *see* 3-Hydroxy-3-methylglutaryl-coenzyme A synthase
HMGR: *see* 3-Hydroxy-3-methylglutaryl-coenzyme A reductase
HNE: *see trans*-4-Hydroxy-2-nonenal
13-HODE: *see* 13-(S)-Hydroxyoctadecadienoic acid
Hormone-sensitive lipase
Decreased expression and function in subcutaneous fat cells of obese subjects 2059
Overexpression in macrophages, effect on atherosclerosis 397
Hormones: Regulation of the CEH promoter by 2091
HSPG: *see* Heparan sulfate proteoglycans
HTGL: *see* Hepatic triglyceride lipase
Human blood platelets: ApoE receptor 2 in 1925
Human umbilical vein endothelial cells: Inhibition of VCAM-1 expression in, by reconstituted HDL 345
HUVEC: *see* Human umbilical vein endothelial cells
Hydroperoxides, lipid: Inhibition of LCAT activity by 948
25-Hydroxycholesterol: Stimulatory effect on sphingomyelin synthesis 109
27-Hydroxycholesterol: Production rates in normal human subjects 1194
Hydroxyeicosatetraenoic acids: Metabolism in platelets 940
Hydroxylation
Of fatty acids by human cytochromes P450 1990
Urinary excretion, major route of elimination of γ-tocopherol 665
ω-Hydroxylation: Of *trans*-4-hydroxy-2-nonenoic acid 152
3-Hydroxy-3-methylglutaryl-CoA lyase: Targeting and processing in peroxisomes and mitochondria 70
3-Hydroxy-3-methylglutaryl-CoA reductase: Regulation in cultured IM-9 cells 24
3-Hydroxy-3-methylglutaryl-CoA reductase inhibitors: Differential regulation of apoB secretion from HepG2 cells by 1078
3-Hydroxy-3-methylglutaryl-CoA synthase: Mitochondrial, atypical expression in subcutaneous adipose tissue 1071
***trans*-4-Hydroxy-2-nonenal:** Involvement of cytochrome P450 4A family in oxidative metabolism of, using PPARα-deficient mice 152
6-Hydroxy-4-sphingenine-containing ceramide: In human skin 1434
13-(S)-Hydroxyoctadecadienoic acid
Incorporation by endothelial cells 699
Metabolites of 699
Hypercholesterolemia
Altered signal pathway in granulocytes from 1728
Effect of stanol ester feeding on serum sterols 593
Expression of monocyte chemoattractant protein receptor 1053
Spontaneous in pigs, mutation in the LDL receptor 475
Hyperinsulinemia: Plasma LCAT and lipid transfer protein activities in response to 1467
Hyperlipidemia: In the SMHL rabbit 2234
Hyperlipoproteinemia
Remnant-like particles in patients 636
Type I, chylomicron metabolism in an animal model for 1336
Hyperlipoproteinemia, type III: Pathogenesis 1933
Hypoalphalipoproteinemia: Associated with two apoA-I variants 486
Hypobetalipoproteinemia: And apoB mutations 955
Hypocholesterolemia: Induced by synthetic saponins 464

I

IFN-gamma: *see* Interferon-gamma
Immortalized fibroblasts: Apolipoprotein-mediated lipid afflux from 1769
Immunochemical assay: Of Lp[a] 2255
Immunofluorescence
Detection of apoE antigen in fatty streak lesions by 806
Localization of FACS in adipocytes by 881
Localization of β-glucocerebrosidase by 861
Localization of LDL receptors in transfected cells by 814
Of farensyl diphosphate synthase 1572
Inbred mouse strains: Relationship between PLTP activity and HDL 295
Insect lipophorin 973
Insulin resistance 1177
Insulin response element: In apoC-III promoter region, in FCH 1036
Insulin sensitivity: Influence on plasma LCAT and lipid transfer protein activities 1467
Interferon-gamma: Possible promotion of foam cell formation by macrophage uptake of lipoprotein 1017

Intermediate density lipoprotein: Structural heterogeneity of 1827
Intracellular degradation
Of apoB, stimulated by dietary fish oils 504
Of apo[a] 275
Intracellular membranes: Removal of apoB from, delayed by inactivation of MTP 1758
Intracellular signalling 1925
Intracellular trafficking of fatty acids 1371
Intravenous triglyceride: Response of LCAT, PLTP, and CETP to 1459
IRE: *see* Insulin response element
Iron release: From diferric transferrin, lipolysis-induced 1347
Isolated perfused mouse liver: Evaluation of the components of chylomicron remnant removal in 1899
Isoprenoid biosynthesis: Regulation in *S. cerevisiae*, evaluation by GRM 850
Isoprenoid metabolism: Peroxisomal association of enzymes in 1572
Isotopic enrichment: Of plasma FFA, new procedure for determination of 2118

J

J774 macrophages: Core aldehyde formation by 1240
Jurkat T-cell line: Apoptosis mediated by oxidized LDL 1200

K

K^+ channels: Role of in vascular effects of arachidonic acid in the rat perfused heart 2177
Keratinocytes: Regulation of PLA_2 in 1701
7-Ketocholesterol
Efflux from macrophage foam cells 1636
Hepatic metabolism in vivo 1846
Ketone body: Production in SC in male mice 1071
Δ^4-3-Ketosteroid 5β-reductase: Gene expression in pancreatic hepatocyte-like cells 1793
Kinetics
Model for apoA-I in HDL 1782
Of apoA-I in heterozygous familial hypercholesterolemia 1506
Of apoA-I in TRL and HDL 1695
Of cholesterol and phospholipid efflux from macrophages 1618
Of DHA after ingestion in phosphatidylcholine 1867
Of linoleic acid in the pregnant and fetal baboon 1304
Of VLDL triglyceride in humans 2111
Knockout mice
ApoE, changes to lipids and antioxidants in plasma and aortas 1104
ApoE, protection against atherosclerosis by overexpressed LPL 1677
Hepatic lipase and apoA-II 1064

L

Lactoferrin: Effect of on plasma clearance of chylomicrons in mice 797
LCAT: *see* Lecithin:cholesterol acyltransferase
LDL: *see* Low density lipoprotein
Lecithin-cholesterol vesicles: Energy transfer study, in presence of phospholipase C 1483
Lecithin:cholesterol acyltransferase
Activity, influence of insulin sensitivity and CETP gene polymorphism on 1467
Alteration of activity by remodeled reconstituted HDL 2293
Enzyme structure and activity, effect of natural mutations on 59
Inhibition by lipid hydroperoxides 948
Recombinant, C-terminal histidine tagged 1512
Response to intravenous triglyceride 1459
Targeted disruption, associated with plasma PON and PAF-AH 1276
Leptin 1735
Suppression of plasma levels by dietary vitamin A 824
Leukotriene C4: Export mechanism in human platelets 439
Linoleic acid
Conjugated, ligand and activator of PPAR-α 1426
Kinetics in the pregnant and fetal baboon 1304
Lipase assay: In *Arabidopsis thaliana* seedlings using naturally fluorescent triacylglycerols 2313
Lipase, hormone-sensitive: Decreased expression and function in subcutaneous fat cells of obese subjects 2059
Lipid binding: Conformational changes in N-terminal domain of apoE induced by 93
Lipid chaperones: Function of ALBP/aP2 protein as 967
Lipid content: Of brown adipose tissue 1395
Lipid deposition: Macrophage, VLDL-induced, enhanced by IFN-gamma 1017
Lipid efflux: From immortalized cells 1769
Lipid enzyme transgenes: Expressed in the rabbit 365
Lipid hydroperoxides: Inhibition of LCAT activity by 948
Lipid lamellar phases: In stratum corneum 2303
Lipid metabolism
Hepatic and adipose tissue 2034
Tissue-specific, in vivo, assessment of 1155
Lipid peroxidation 152
In apoE knockout mice 1104
Of LDL from postmenopausal monkeys treated with female hormones 235
Lipid peroxides: In atherogenesis 2143
Lipid pocket model: For self-assembly of apoB-containing particles 1401
Lipidic map: In vivo quantitative, of brown adipose tissue 1395
Lipids
Changes in plasma and aortas of apoE knockout mice 1104
Fasting and postprandial, effect of variation in the apoA-IV gene on 287
Human, turnover of DHA in 1867
Lipid transfer protein activities: Influence of insulin sensitivity and CETP gene polymorphism on 1467
Lipodystrophy 1735
Lipolysis
Adipose cell, and weight loss in humans 1559
AKH-induced lipolysis in the fat body 556
In adipocyte lipid-binding protein null mice 967
Iron release induced by, possible role of LPL in LDL oxidation 1347
Lipolytic response: To β-adrenoceptor agonists in white adipocytes 1719
Lipophorin, insect: Endocytosis of, mediated by an insect homolog of VLDL 973
Lipopolysaccharide 1090
Binding to lipoproteins 680
Lipoprotein assembly proteins: In hepatocytes RER fractions 1140
Lipoprotein B particle system: Defined by apoE and apoC-III content, effect of estrogenicoral contraceptives on 202
Lipoprotein lipase
Activity in coronary artery disease 735
Asn291Ser variant, in normolipidemic carriers 1663
Deficiency in mink, an animal model for hyperlipoproteinemia type I 1336

Differential binding of TRL to 1655
Expression, and clearance of chylomicron retinyl ester 565
Maturation, disparate mutations affecting 2044
Overexpressed in apoE knockout mice, protection against atherosclerosis 1677
Possible role in LDL oxidation 1347
VLDL-bound, effect on CETP transfer of cholesteryl esters from HDL to VLDL 2333
Lipoprotein metabolism: Effects of 3-thia fatty acids on 2099
Lipoprotein particles: Cryo-electron microscopy of 1827
Lipoprotein removal: Functional role of apoE 1529
Lipoprotein secretion: In mouse yolk sac during embryonic development 1967
Lipoprotein subfractions: Characterization and quantitation by capillary isotachophoresis 2125
Lipoprotein [a]
Effect of PLA_2 on 583
Preparation of a fresh frozen primary standard 2255
Lipoproteins
Analytical capillary isotachophoresis of 170
ApoB-containing, in the SMHL rabbit 2234
ApoB-containing, structural heterogeneity of 1827
Cholesterol shuttling between serum and cells, ability of cyclodextrins for 1475
Concentration in monkeys treated with female hormones 235
Differential effect on monocytes, in hypercholesterolemia 1053
Effect of hepatic lipase activity on concentration of 229
In CAD subjects, relationship to LPL activities 735
Inhibition of macrophage activation by lipoteichoic acid 245
In human apoB transgenic mice, effect of diabetes on 2185
Liposomes
Cationic, interaction with bacteria 1495
Sulfatide-containing, fusion with synaptosomes 1254
Lipoteichoic acid: Activation of macrophages by, inhibition by lipoproteins 245
Lipovitellin: Structural homology to N-terminal domain of apoB 1401
12-Lipoxygenase: Metabolism of mono HETEs via 940
***Lith* genes**
And hepatic lipid regulatory enzymes 2080
Phenotypic characterization 2066
Lithogenic bile formation: In gallstone-susceptible mice 2066
Liver uptake: Of hepatic lipase-generated chylomicron remnants 797
Locus heterogeneity: In familial hypercholesterolemia 1113
Long-chain fatty acids: Cellular uptake and intracellular trafficking 1371
Low density lipoprotein
Accumulation in the artery wall 387
ApoB, decreased production by ACAT inhibition 1317
Binding to apoB R3531C mutation 318
Capillary isotachophoresis of 170
Cell-mediated oxidation, formation of CE-core aldehydes during 1240
Degradation and binding, in hamster cells coexpressing two mutant LDL receptors 814
Effect of functional polymorphism in the apoB promoter on levels of 1686
Effect on membrane composition of granulocytes, in hypercholesterolemia 1728
Oxidation by myeloperoxidase 686
Oxidation in baboons, attenuated by polyenylphosphatidylcholine 983
Oxidation in baboons, increased by alcohol 983
Oxidation, in monkeys treated with female hormones 235
Oxidation, possible role of LPL 1347
Oxidized 2143
Oxidized, induction of apoptosis in T lymphocytes by 1200
Paraoxonase protection against peroxidation 133
Structural heterogeneity of 1827
Subfractions determined by capillary isotachophoresis 2125
Low density lipoprotein cholesterol
Variations associated with A-204C polymorphism in CYP7 gene 1883
Vimentin-dependent utilization in human adrenal cells 1440
Low density lipoprotein receptor 1, 1113
Binding of apoB R3531C mutation by 318
Binding of newly synthesized apoE 1029
Expression, induced by anisomycin in HepG2 cells 1911
Catabolism of VLDL mediated by, in vitro 1263
Gene, phenotypic consequences of deletion of exons 2 and 3 213
Mice deficient in, catabolism of remnant lipoproteins 336
Mice deficient in, protection against atherosclerosis by estrogen 893
Mutant, defective in endocytosis and ligand binding 814
Mutation, spontaneous hypercholesterolemia in pigs 475
Low density lipoprotein receptor-related protein 1, 1263
Role in chylomicron remnant removal by the liver 1899
LPL: *see* Lipoprotein lipase
LTC4: *see* Leukotriene C4
Lung, human: Elimination of cholesterol from, as cholestenoic acid 1417
Lysophosphatidylcholine
Induction of arachidonic release and calcium influx in cardiac myoblasts 1818
Stimulation of phospholipase D activity by, in mouse peritoneal macrophages 988
Lysosomal acid lipase, human: Mutation in the gene locus in Wolman disease 221
Lysosomes
Of macrophage foam cells, cholesteryl hydrolysis in 405
Role of sphingolipids in transport of prosaposin to 1593

M

Mab: *see* Monoclonal antibody
Macrophage activation: By lipoteichoic acid, inhibition by lipoproteins 245
Macrophage caveola 1647
Macrophage foam cells
Cholesteryl ester hydrolysis in 405
Oxysterol efflux from, essential role of acceptor phospholipid 1636
Regulation of cholesterol synthesis in 1806
Macrophage type B scavenger receptor: Regulation of expression, by cellular cholesterol 830
Macrophage-specific apolipoprotein E: Involvement in atherosclerosis in mice 806
Macrophages
ApoE-dependent efflux of cholesterol from 1618
Binding of newly synthesized apoE by LDL receptor 1029
Cultured, uptake of type IV hypertriglyceridemia VLDL 1017
Ether lipid-deficient, regulation of DHA levels by plasmalogens 495
Hydrolysis of retinyl esters in 309
Simulation of phospholipase D activity in, by lysophosphatidylcholine 988
Malonyl-coenzyme A decarboxylase: Human, cloning and mutational analysis of 178
***Manduca sexta* fat body:** AKH-induced lipolysis is, role of Ca and cAMP 556
Marine oils: Detection of 28:8n-3 in 1501

Mass spectrometry
Analysis of apoA-I by 654
Analysis of β-oxidation of pristanic acid intermediates by 260
Negative ion, use of in quantifying cholesterol absorption 302
Study of polymorphism of VLDL apolipoproteins by 543
Mechanism of chylomicron remnant removal: Evaluation in the isolated perfused mouse liver 1899
Melanogenesis: Regulation by fatty acids, involvement of tyrosinase degradation 1312
Membrane-binding proteins: In human monocyte-macrophages 744
Membrane lipids: Rat brain, developmental changes in 960
Membrane vesicles: Ileal brush border, transport of bile acids 1604
Menopause: Effect of on lipids, lipoproteins, and apolipoproteins in normolipidemic females 1211
Metabolic turnover: Of apoA-I in HDL 1782
Metabolism: Hepatic, of 7-ketocholesterol in vivo 1846
Mevalonate-derived nonsterols: In regulation of HMGR 24
Microsomal membranes: Removal of apoB from, in assembly of VLDL 1758
Microsomal triglyceride transfer protein 2212
Delayed apoB removal from intracellular membranes by inactivation of 1758
Effect of overexpression on VLDL production 2134
Structural homology to N-terminal domain of apoB 1401
Microsomes: Bile salt-independent cholesteryl esterase in 715
Mink: LPL deficiency in, an animal model for hyperlipoproteinemia type I 1336
Mitochondria
Subcutaneous adipose tissue, expression of HMG-CoA synthase 1071
Targeting and processing of HMG-CoA lyase in 70
Mitochondrial diseases: Microanalysis of cardiolipin in patients with 1585
Mitogen-activated protein kinase 1911
Model cell system: For chylomicron assembly and secretion 1357
Models of obesity 1735
Molecular defects: In Wolman disease 221
Molecular interactions: In mixtures of ceramide with dipalmitoylphosphatidylcholine 1978
Molecular modeling: Of human PLTP 1123
Molecular species: Of PE 164
Monoacetyldiglycerides: From bovine udder, isolation and characterization 2169
Monoclonal antibodies: For apoB-100 in apoB-48-only mice 76
Monoclonal antibody
CETP, epitope mapping 2013
CETP, selective inhibition of TG transfer by 2013
Monocyte chemoattractant protein receptor: Increased expression in hypercholesterolemia 1053
Monocyte function: Differential effects of plasma lipoproteins on 1053
Monocyte-macrophages: Unique apoB-specific receptors for TGRLP 744
Monocytes
Human, HDL_3 binding sites on 1131
Induction of acid sphingomyelinase in 870
Monolysocardiolipin: Acylation in rat heart 1837
Monolysocardiolipin acyltransferase: In rat heart 1837
Mononuclear cells: Apoptosis mediated by oxidized LDL 1200
Mouse model: Of atherosclerosis 893
MTP: *see* Microsomal triglyceride transfer protein
Mucin gel: And cholesterol content promote cholesterol crystallization in human gallbladder bile 415
Multidrug resistance-associated protein 1: Possible involvement of LTC4 exportmechanism in human platelets 439
Muscle cardiolipin: Microanalysis of 1585
Mutational analysis
Of APOBEC1 623
Of human malonyl-coenzyme A decarboxylase 178
Mutations
ApoB R3531C, characteristics of 24 subjects from 9 kindreds 318
Apolipoprotein E, Glu244→Lys, Glu245→Lys 253
Causing familial hypercholesterolemia 1113
Of apoB, and hypobetalipoproteinemia 955
Of the LDL receptor (Arg→Cys) in pigs 475
cld and *lec23*, effect on LPL maturation in the endoplasmic reticulum 2044
Natural, effect of on LCAT enzyme structure and activity 59
Myeloperoxidase: Oxidation of apoB-100 by 686

N

N-Acyl-ethanolamine phospholipids: Study of formation in brain, by ^{31}P NMR 515
Na^+/bile acid cotransporter: Hepatic and ileal, substrate specificity 2158
NBD: Lipids labeled with, for differential determination of PLA_2 and PAF-acetylhydrolase 2346
Neurosteroid metabolism: Possible involvement of oxysterol 7α-hydroxylase 2195
Nitroarginine: Vascular responses in hearts treated with 2177
Non-cholesterol sterols: Metabolism 593
Nuclear magnetic resonance spectroscopy
Analysis of equine plasmaloglycolipids by 2271
^{31}P, use of in study of formation of N-acyl-ethanolamine phospholipids in brain 515
Nuclear receptor: PPARα 1425

O

Obese mice: Hepatic effects of rosiglitazone in 1177
Obesity
Decreased expression and function of hormone-sensitive lipase 2059
Monogenic disorders of 1735
4,7,10,13,16,19,22,25-Octacosaoctaenoic acid: In marine oils 1501
Octaene fatty acid: 28:8n-3 in marine oils 1501
Oleic acid
In structured triacylglycerols, in study of processing of dietary fat 1890
Oxidation, compared to palmitic acid 2322
OSBP: *see* Oxysterol binding protein
OSO: *see sn*-1,3-Dioleoyl-2-stearoylglycerol
Oxidants: In atherogenesis 2143
α-Oxidation
Hepatic, of 3-methyl-branched fatty acids 601
Of phytanic acid 2244
Oxidation
Comparison between oleate and palmitate 2322
Of 3-methyl-branched fatty acids 601
Of LDL in baboons 983
Oxidative modification: Of LDL 686
Oxidized low density lipoprotein 2143
Induction of apoptosis in T lymphocytes by 1200
Oxysterol 7α-hydroxylase, human: Functions of 2195
Oxysterol binding protein
Homologues, implicated in brain sterol metabolism 2204

Potentiation of stimulatory effect of 25-hydroxycholesterol on sphingomyelin synthesis 109
Oxysterols
Detoxification, possible involvement of oxysterol 7α-hydroxylase 2195
Dietary, contribution to atherogenesis 1846
Efflux from macrophage foam cells 1636
Production rates of 27-hydroxycholesterol in humans 1194

P

PAF-AH: *see* Platelet-activating factor acetylhydrolase
PAF-acetylhydrolase 2346
Separation and identification of PE molecular species 164
PAI-1: *see* Plasminogen activator inhibitor-1
Palmitic acid
Oxidation, compared to oleic acid 2322
Protein-mediated uptake in heart giant vesicles 1007
Pamaqueside: Synthetic saponin inhibitor of cholesterol absorption 464
Pancreas, rat: Hepatocyte-like cells in 1793
Papilloma virus: Selective induction of immortalization of fibroblasts by 1769
Paraoxonase
And platelet-activating factor acetylhydrolase 1276
Genotype, and LDL peroxidation 133
Parinaric acid 2313
Particle size: Of VLDL, effect of on displacement of apoE by apoC-III 1875
Pathophysiology: Of biliary lipid secretion 2066
PE: *see* Phosphatidylethanolamine
Perfused liver: Of the SMHL rabbit, overproduction of apoB by 2234
Perinatal rat brain: Fatty acids in 960
Peroxidation: Of LDL, protection against by paraoxonase 133
Peroxisomal disorders: Analysis of pristanic acid β-oxidation products of, by mass spectrometry 260
Peroxisomal enzymes: In ether lipid biosynthesis 1998
Peroxisome proliferator activated receptor: Rosiglitazone, a selective agonist 1177
Peroxisome proliferator-activated receptor 708
Conjugated linoleic acid high affinity ligand for 1425
Peroxisome proliferator-activated receptor α-deficient mice: Oxidative metabolism of HNE by 152
Peroxisome proliferator-activator receptor: Involvement in modulation of apolipoprotein gene expression by TTA 2099
Peroxisomes
Rat hepatoma, differential binding of proteins to 1572
Targeting and processing of HMG-CoA lyase in 70
PGE_2: *see* Prostaglandin E2
P-glycoproteins: Role of, in hepatobiliary secretion of fluorescent short-chain phospholipids 1950
Pharmacophore model: For the ileal Na^+/bile acid cotransporter 2158
Phase behavior
In mixtures of ceramide with dipalmitoylphosphatidylcholine 1978
Of lipid mixtures 2303
Phenotypic consequences: Of deletion of exons 2 and 3 of the LDL receptor gene 213
Phosphatidylcholine
And sphingomyelin, asymmetric distribution between micellar and vesicular phases 2022
Dietary, labeled with [^{13}C]DHA 1867
Phosphatidylethanolamine: Unilamellar vesicles, containing sulfatide, Ca^{2+}-induced fusion 1254
Phosphatidylethanolamine molecular species: Separation and identification of 164
Phospholipase A_2
Activation in cardiac myoblasts 1818
Determination in biological fluids using fluorescent substrates 2346
Digestion of Lp[a] by, effect on conformation and binding properties 583
Modulation by electrostatic fields and dipole potential of glycosphingolipid monolayers 930
Regulation in mouse keratinocytes 1701
Phospholipase C: Fluorescence energy transfer study of lecithin-cholesterol vesicles in presence of 1483
Phospholipase D: Stimulation of activity in macrophages by lysophosphatidylcholine 988
Phospholipid hydroperoxides: Inhibition of LCAT activity by 948
Phospholipid solubilization: And bile formation 2022
Phospholipid transfer protein
Activity, relationship with HDL in mouse strains 295
Human, structural model of 1123
Proteolytic cleavage of apoA-I by 654
Response to intravenous triglycerid 1459
Structure and activity, analysis by molecular modeling and site-directed mutagenesis 1123
Phospholipids
Essential role of, in oxysterol efflux from macrophage foam cells 1636
Fluorescent, biliary transport of 1950
Labeled with NBD-fatty acids, for differential determination of PLA_2 and PAF-acetylhydrolase 2346
Phospholipids, N-acyl-ethanolamine: Study of formation in brain, by ^{31}P NMR 515
Phosphomevalonate kinase: Chromosomal localization, regulation, and subcellular targeting 672
Physical chemistry of bactericidal action 1495
Phytanic acid
Ligand and trancriptional activator of liver FABP 708
α-Oxidation 2244
Phytanoyl-CoA hydroxylase: Rat liver, purification and cDNA cloning 2244
PLA_2: *see* Phospholipase A_2
Plant lipase: Detection in seedlings 2313
Plant sterols: Dietary, effect on serum sterols 593
Plasma clearance
Of hepatic lipase-generated chylomicron remnants 797
Of LpA-I and HDL_3 522
Plasma lipids: Association with IRE in the apoC-III promoter region in FCH 1036
Plasma membrane: Localization of FACS at, in adipocytes 881
Plasma membrane cholesterol: Regulation of endoplasmic reticulum cholesterol by 2264
Plasmalogalactosylalkylglycerol: From equine brain 2271
Plasmalogen: Regulation of DHA levels by, in a macrophage cell line 495
Plasminogen activator inhibitor-1: Expression, activated by VLDL 913
Platelet aggregation: Inhibition by apoE 1925
Platelet-activating factor acetylhydrolase
And paraoxonase 1276
Determination in biological fluids using fluorescent substrates 2346
Platelets
Human, characterization of a leukotriene C4 export mechanism 439
Metabolism of mono-HETE in 940
PLTP: *see* Phospholipid transfer protein
Polyenylphosphatidylcholine: Attenuation of oxidation of LDL by, in baboons 983

Polymerase chain reaction 2340
Polymorphic transition: Of *sn*-1,3-distearoyl-2-oleoylglycerol and *sn*-1,3-dioleoyl-2-stearoylglycerol 140
Polymorphism
Of apoE 2340
Of apoE and apoC-I in human subjects 50
Of VLDL apolipoproteins 543
Polyunsaturated fatty acids:
Levels influenced by plasmalogen status 495
n-6, effects on hepatic lipogenic gene expression 1045
Regulation of stearoyl-CoA desaturase by 1549
Up-regulation of SR-BI expression by 1384
PON: *see* Paraoxonase
Post-heparin lipoprotein lipase activity: In CAD patients 735
Postprandial lipemia: In LPL Asn291Ser carriers 1663
Postprandial lipids: Effect of variation in the apoA-IV gene on 287
Postprandial responses: Of triglycerides, apoB-48, apoB-100, retinyl esters, and cholesterol in LPL Asn291Ser carriers 1663
Postprandial triglyceride clearance: Delayed in mice lacking ASP 1671
PPARα: *see* Peroxisome proliferator-activated receptor α
Pregnancy
Linoleic kinetics and conversion to arachidonic acid in the pregnant baboon 1304
Modification of the α2- and β-adrenergic receptor balance in rabbit fat cells 267
Pristanic acid: β-Oxidation intermediates of, analysis by gas chromatography-mass spectrometry 260
Proapolipophorin gene family 1222
Prosaposin: Transport to lysosomes, role of sphingolipids 1593
Prostaglandin E2: Regulation of hepatic lipogenic gene expression by 1045
Proteasome pathway: Mediation of intracellular degradation of apo[a] by 275
Proteolytic cleavage: Of apoA-I by PLTP 654
Proteolytic degradation: Of tyrosinase, in regulation of melanogenesis by fatty acids 1312
Proteosomal degradation: Of apoB 2212
Proton magnetic resonance: Assay of bile acids in bile by 1920
PUFA: *see* Polyunsaturated fatty acids
Pulmonary cholesterol: Elimination as cholestenoic acid by 27-sterol hydroxylase 1417
Pulmonary surfactant protein A: Interactions with DPPC and cholesterol 920

Q

3D QSAR pharmacophore model: For the ileal Na^+/bile acid cotransporter 2158
QTL: *see* Quantitative trait loci analysis
Quantitative trait loci analysis: For differences in susceptibility to atherosclerosis and diabetes between inbred mouse strains 1328

R

5βR: *see* Δ4-3-Ketosteroid 5β-reductase
Receptor
CCR2, increased expression in hypercholesterolemia 1053
For HDL 187
Insect lipophorin 973
Macrophage type B scavenger, regulation of expression by cellular cholesterol 830
Receptor binding region: Of apoE 1933
Receptor-mediated endocytosis: Competition of Aβ amyloid peptide and apoE for 447
REGRESS Study 735
Regulation
Of adrenal scavenger receptor-BI by ACTH and cellular cholesterol pools 1799
Of apoB secretion from HepG2 cells, by HMG-CoA reductase inhibitors 1078
Of apoB-100 secretion 2004
Of cholesterol synthesis in macrophage foam cells 1806
Of ER cholesterol by plasma membrane cholesterol 2264
Of expression of CD36 expression by cellular cholesterol 830
Of hepatic lipogenic gene expression 1045
Of HMG-CoA reductase 24
Of isoprenoid biosynthesis in *S. cerevisiae* 850
Of melanogenesis, involvement of proteolytic degradation of tyrosinase 1312
Of phosphomevalonate kinase 672
Of PLA_2 in mouse keratinocytes 1701
Of stearoyl-CoA desaturase by PUFA and cholesterol 1549
Of the CETP gene by cholesterol, mediated by SREBP-1a 1284
Of the rat neutral cholesteryl ester hydrolase gene 2091
Of VLDL-receptor gene transcription 376
Regulatory enzymes: In cholesterol biosynthesis 2080
Remnant lipoprotein clearance: Lower threshold of apoE resulting in 1529
Remnant lipoprotein metabolism
And apoE 1933
Catabolism in LDL receptor-deficient mice 336
Pathways involving cell-surface HSPG and apoE 1
Remnant removal: By the isolated perfused mouse liver 1899
Remnant-like particles: From plasma of type III and type IV hyperlipoproteinemic patients 636
RER: *see* Rough endoplasmic reticulum
9-*cis*-Retinoic acid: Formation of 2279
Retinoid- and fatty acid-binding glycoprotein: Heme-binding by in *Drosophila* 1222
***cis*-Retinol:** Oxidation by a short chain dehydrogenase/reductase 2279
***cis*-Retinol dehydrogenase**
Biochemical properties, tissue expression, and gene structure 2279
Oxidation of *cis*-retinol by 2279
Retinyl ester
Hydrolysis in early endosomes of J774 macrophages 309
In chylomicrons, clearance of 565
Reverse cholesterol transport 575, 1185, 2293
Review articles
Cell cholesterol efflux 781
Cellular uptake and intracellular trafficking of long chain fatty acids 1371
HDL receptors, binding proteins, and ligands 187
Monogenic disorders of obesity and body fat distribution 1735
Oxidants and antioxidants in atherogenesis 2143
Pathogenesis of type III hyperlipoproteinemia 1933
Regulation of stearoyl-CoA desaturase by polyunsaturated fatty acids and cholesterol 1549
Remnant lipoprotein metabolism 1
Transgenic rabbits as models for atherosclerosis research 365
RFABG: *see* Retinoid- and fatty acid-binding glycoprotein
***D-ribo*-phytosphingosine-1-phosphate:** A potential modulator of cellular processes, chemical synthesis of 117
mRNA: Apo[a] in YAC33 transgenic mice 994
Rosiglitazone: Hepatic effects of, in obese mice 1177
Rough endoplasmic reticulum, hepatocyte: Calcium precipitation method for isolation of 1140

S

Saccharomyces cerevisiae: Isoprenoid biosynthesis in, regulation of 850
Saponins: Cholesterol absorption inhibitors 464
SC: *see* Subcutaneous adipose tissue
Scavenger receptor: Lipoprotein binding to, modulated by apoE peptides 753
Scavenger receptor B1
Expression in THP-1 macrophages 1647
Hepatic, up-regulation by PUFA 1384
Mediation of free cholesterol flux by 575
Selective uptake of HDL cholesteryl esters by 1294
Uptake of HDL cholesteryl esters by cells expressing 1185
Secretion: Hepatic, of apoB-100 in human apoB transgenic mouse strains 2004
Serum amyloid A
Expression of, effect on HDL metabolism 648
HDL containing, during the acute phase response in apoA-I+/+ and apoA-I−/− mice 1090
Serum lipids: Rats, effect of TTA on 2099
Serum sterols: Concentrations after stanol ester treatment 593
Sex hormone synthesis: Possible involvement of oxysterol 7α-hydroxylase 2195
Signal transduction 1728
Simvastatin: Regulation of apoB secretion from HepG2 cells by 1078
Site-directed mutagenesis: Of human PLTP 1123
Skin, human: A 6-hydroxysphingosine-containing ceramide in 1434
Small intestine: Isolation of enterocytes from 1357
Small unilamellar vesicles: Phosphatidylethanolamine/sulfatide 1254
SMHL: *see* St. Thomas' mixed hyperlipidemic rabbit
Smith-Lemli-Opitz syndrome
A model for antenatal growth retardation in 456
Bile acid synthesis in 1520
SOS: *see sn*-1,3-Distearoyl-2-oleoylglycerol
SP-A: *see* Pulmonary surfactant protein A
Sphingolipids: And transport of prosaposin to lysosomes 1593
Sphingomyelin
And phosphatidylcholine, asymmetric distribution between micellar and vesicular phases 2022
Enrichment in canalicular membrane, with cholesterol, and prevention of bile salt-induced hepatic damage 533
Synthesis, effect of 25-hydroxycholesterol on 109
***erythro*-Sphingosine:** Methods for determining the enantiomeric purity of 764
Squalene synthetase inhibitors: Use of in study of regulation of HMGR in IM-9 cells 24
St. Thomas' mixed hyperlipidemic rabbit: ApoB overproduction by the perfused liver of 2234
Stable isotopes
Blood compartmental metabolism of DHA 1867
Determination of isotopic enrichment of plasma fatty acids 2118
FFA labled with 2118
In study of comparative fatty acid oxidation 2322
Use of in quantification of cholesterol absorption in normal men and women 302
Use of in study of kinetics of apoA-I in heterozygous FH 1506
Use of [$^2H_5$]glycerol to measure VLDL triglyceride kinetics in humans 2111
Stearic acid: In structured triacylglycerols, in study of processing of dietary fat 1890
Stearoyl-CoA desaturase: Regulation by PUFA and cholesterol 1549
Sterol 27-hydroxylase: Formation of cholestenoic acid from cholesterol in human lung 1417
Sterol balance: In the central nervous system 2204
Sterol carrier protein-2
And cholesterol utilization in human adrenal cells 1440
Gene products, origin and role in cholesterol trafficking 610
Sterol carrier protein-2/3-oxoacyl-CoA thiolase: Expression and intracellular processing in L-cell fibroblasts 610
Sterol efflux: From macrophage foam cells, role of phospholipid 1636
Sterol metabolism, brain: OSBP homologue implicated in 2204
Sterol regulatory element binding protein 1284
Sterols
Quantitation in human stool by capillary GLC 1148
Regulation of the CEH promoter by 2091
Serum, during stanol ester feeding in a mildly hypercholesterolemic population 593
Stratum corneum
Lipid, effect of cholesterol sulfate and calcium on organization of 2303
Mammalian, β-glucocerebrosidase activity in 861
Streptozotocin: Diabetes induced by, in human apoB transgenic mice 2185
Stress: Lipolytic response during, in rat white adipocytes 1719
Structure-activity relationships: 3D QSAR model for the ileal Na^+/bile acid cotransporter 2158
Structure-function relationships
Of apoA-I variants 486
Of APOBEC1 623
Structured triacylglycerols: In study of metabolic processing of dietary fat 1890
Subcellular localization: Of phytanic acid α-oxidation 2244
Subcellular targeting: Of phosphomevalonate kinase 672
Subcutaneous adipose tissue: Atypical expression of HMG-CoA synthase in, in male rats 1071
Sulfatide-containing liposomes: Fusion with synaptosomes 1254
Surface-active properties: Of SP-A 920
Synaptosomes: Fusion with sulfatide-containing liposomes 1254
Synthetic cerebrosides: Bilayers of 839

T

Tangier disease cells 1769
Taurine-conjugated bile acids: Assay by proton magnetic resonance 1920
Tetradecylthioacetic acid: Effect on lipoprotein metabolism via PPARα 2099
TGRLP: *see* Triglyceride-rich lipoproteins
3-Thia fatty acids: Effect on lipoprotein metabolism via PPARα 2099
Thioesterases 17
THP-1 macrophage-like foam cells: Cholesterol release and apoE recruitment from 85
Tiqueside: Synthetic saponin inhibitor of cholesterol absorption 464
Tissue clearance: Of chylomicron retinyl ester, influenced by LPL expression 565
Tissue expression: Of a retinol dehydrogenase that oxidizes 9-*cis*-retinol 2279
Tissue-specific lipid metabolism: In vivo 1155
γ-Tocopherol: Elimination as 2,7,8-trimethyl-2-(β-carboxyethyl)-6-hydroxychroman 665
Tocopherol metabolism 665

Trancriptional activation: Of liver fatty acid binding protein by phytanic acid 708
Transcription: Of LDL receptor by mitogen/extracellular protein kinase 1911
Transcription factors
And age-related decline in apoA-I expression 1709
Functional role in regulation of CETP gene 1284
Sp1 and AP-2, mediation of induction of acid sphingomyelinase in monocytes 870
Transcriptional control: Of apo[a] in transgenic mice 994
Transcriptional elongation: Of the rat apoA-I gene 1229
Transfected macrophage model: To study lipid efflux kinetics 1618
Transferrin: Lipolysis-induced iron release from, possible role in LDL oxidation 1347
Transgenic mice
Expressing a human apo[a] allele 994
Hormone sensitive lipase, increased atherosclerosis in 397
Human apoB, effect of streptozotocin diabetes on lipoproteins and atherosclerosis 2185
Human apoB, genetic control of hepatic apoB-100 secretion in 2004
Transgenic rabbits: As models for atherosclerosis research 365
Transition metals: And formation of CE-core aldehydes during cell-mediated LDL oxidation 1240
Transporters: Hepatic Na^+/bile acid, in rabbit ileal 1604
Triacylglycerols
Lipolysis in *Manduca sexta* fat body 556
Naturally fluorescent, used to detect low lipase activities in seedlings 2313
Synthesis and secretion by isolated enterocytes 1357
Triglyceride: VLDL, increased production with overexpression of MTP 2134
Triglyceride clearance: Delayed in mice lacking ASP 1671
Triglyceride emulsion: Intravenous, response of LCAT, PLTP, and CETP to 1459
Triglyceride secretion: In human apoB transgenic mouse strains 2004
Triglyceride transfer: Inhibition by an anti-rabbit CETP monoclonal antibody 2013
Triglyceride-rich lipoproteins
ApoA-I kinetics in 1695
Delayed clearance in LPL Asn291Ser normolipidemic carriers 1663
Differential binding to LPL 1655
Unique apoB-specific receptors for, in monocyte-macrophages 744
TRL: *see* Triglyceride-rich lipoproteins
TTA: *see* Tetradecylthioacetic acid
Tumor necrosis factor
Apoptosis induced by, in fibrosarcoma cells 2223
LDL accumulation in the artery wall mediated by 387
Turnover: Regulated, of newly synthesized apoE in HepG2 cells 39
Tyrosinase: Proteolytic degradation in regulatory effect of fatty acids on melanogenesis 1312

U

UCP1: *see* Uncoupling protein 1
Udder, bovine: Isolation and characterization of monoacetyldiglycerides from 2169
Ultrastructure: Of yolk sac visceral endoderm cells 1967
Uncoupling protein 1: Enhancement of gene expression by dietary vitamin A 824

V

Vascular cell adhesion molecule 1: Expression, effect of antioxidants on 1958
Vascular cell adhesion molecule-1: Inhibition of expression of in HUVEC by reconstituted HDL 345
Vascular effects: Of arachidonic acid in rat perfused heart 2177
VCAM-1: *see* Vascular cell adhesion molecule-1
Very low density lipoprotein
Activation of PAI-1 expression by 913
An insect homolog of 973
ApoB, decreased production by ACAT inhibition 1317
Assembly 1758
Catabolism, LDLR-mediated 1263
Displacement of apoE from, by apoC-III 1875
Increased in human apoB transgenic mice 2185
LPL bound to, effect on CETP-mediated transfer of cholesteryl esters 2333
Mass spectral study of polymorphism of lipoproteins of 543
Receptor, involvement in VLDL activation of PAI-1 expression 913
Secretion, inhibition by dietary fish oils 504
Specific binding to LPL 1655
Structural heterogeneity of 1827
Subfractions determined by capillary isotachophoresis 2125
Transfer of HDL cholesteryl esters to 2333
Triglyceride and apoB, effect of MTP overexpression on production of 2134
Triglyceride, measurement of kinetics using [$^2H_5$]glycerol 2111
Type IV hypertriglyceridemia, uptake by cultured macrophages, enhanced by IFN-gamma 1017
With reduced triglyceride content 202
Very low density lipoprotein-receptor gene: Regulation of transcription 376
Vimentin filaments: Lack of in human adrenal tumor cells 1440
Vitamin A
Linked to expression of the AI-CIII-AIV gene cluster in FCHL 426
Role in reducing plasma leptin and induction of UCP1 mRNA 824
Vitamin E
Effect of on VCAM-1 expression in arterial wall in rabbits 1958
Elimination of γ-tocopherol in humans 665
VLDL: *see* Very low density lipoprotein

W

Weight loss: And adipose cell lipolysis in humans 1559
Wolman disease: Mutations in hLAL gene locus 221

X

X-ray diffraction patterns
Of stratum corneum 2303
Of totally synthetic cerebrosides 839

Y

Yolk sac: Lipoproteins and gene expression 1967
